SUMMARY

I am a dedicated web developer with a strong foundation in software engineering, having achieved a CGPA of 3.6 at the University of Agriculture, Faisalabad. With more than one year of hands-on experience, I excel in developing responsive web applications and collaborating with cross-functional teams. I am passionate about continuously enhancing my skills and contributing effectively to web development projects.

KEY ACHIEVEMENTS

Frontend Developer Success	User Interface Design Success
Developed frontend features for 7+ responsive web projects using Bootstrap and React.	Designed and prototyped 4+ web projects in Figma, delivering intuitive layouts and developer-ready interactive prototypes.

EXPERIENCE

<div>UI/UX Designer & Frontend Developer</div> <div>Brosh Tech</div> <div>📅 05/2025 Present 📍 Faisalabad</div> <div>Designed user-focused interfaces in Figma and high-performance frontends with React.js for hospital, corporate, e-learning, and AI platforms, boosting engagement and efficiency.</div>	
<div>Frontend Developer</div> <div>Tech Nexus</div> <div>📅 03/2025 05/2025 📍 Lahore (remote)</div> <div>Architect responsive, high-performance React.js interfaces and collaborate with designers to deliver scalable, visually engaging web applications that boost engagement and satisfaction.</div>	
<div>Full Stack Developer</div> <div>Tech Hub</div> <div>📅 05/2024 02/2025 📍 Faisalabad</div> <div>Built high-performance web apps with PHP, MySQL, HTML, CSS, JavaScript, and React.js, featuring secure authentication and intuitive admin dashboards.</div>	

EDUCATION

<div>Bachelor of Software Engineering</div> <div>University of Agriculture</div> <div>📅 08/2021 05/2025 📍 Faisalabad</div>
